

Wood Look without Wood Work®

Cambium®

Cedar

Driftwood

Cambium®

Cambium® is the premium alternative to wood fencing, giving you the look of traditional wood with none of the work. The natural-looking wood grain and texture of Cambium® enhance the appearance and value of your property by providing lasting beauty without the work of real wood.

With Cambium®, you get the look of wood but need never worry that your fence will split, splinter, rot or become termite infested...and, best of all, you will never have to paint or stain your Cambium® fence.

You can see the way Cambium® resembles the texture and grain of real wood. Whether you choose privacy, picket, ranch rail, or pool code style, you will be the envy of your neighbors.

Cambium® Privacy Fencing

When privacy is paramount, look to Cambium® for the solution. Beautifully designed fencing enhances your outside property, whether for relaxing or entertaining, or to increase the security of your children's play area. Both sides of Cambium® fencing have the same attractive finish and design...allowing both you and your neighbors to appreciate its pleasing appearance. To personalize the look of your fence, we offer decorative tops and styles, as well as a wide selection of post caps.

Cambium® privacy panels can be assembled with either traditional tongue-and-groove pickets or with our wide-board Glidelock™ pickets. Each picket fits snugly into the next with no gaps between the boards, giving you true privacy. Glidelock™ utilizes a unique interlocking design for faster installation and superior wind deflection. All Cambium® panels come in either Cedar or Driftwood and are available in two styles: full privacy and spindle top.

With Cambium® semi-privacy fencing, you can also choose from a variety of picket widths and styles to create a semi-private environment, affording some privacy while still providing visibility into the distance.

The decorative rail adds stability, durability and attractive visual detail. Additional strength comes from the aluminum reinforcement in the bottom rail, while our rail-notching system keeps the rails secure in the posts.

Cambium® Picket Fencing

Cambium's® picket fence is an ideal way to establish attractive borders around your property. Whether in the backyard or the front, it maintains that open feeling while still providing security for children and pets.

Choose either wide (3") or narrow (1-1/2") pickets. Either way, rest assured - you are getting Crane Fencing Solutions' trusted construction designs:

- Cross rails that securely cradle every picket for strength and permanence
- Reinforced channels on all bottom rails for added durability and security
- Through-the-rail assembly, resulting in fencing that looks identical on both sides.

Cambium® Ranch Rail

Cambium® ranch rail, an attractive addition to any property, is an unobtrusive way to define your property line or to add accents to a decorative corner without limiting visibility. The perfect fence to surround farms, ranches, estates or new housing developments.

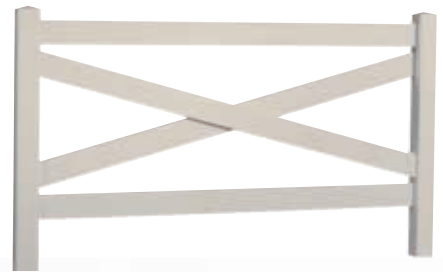

Cambium® ranch rail is available in two-, three- and four-rail designs, as well as in our cross buck design. Each post is routed to ensure that the rails are easy to insert, resulting in a sturdy installation. With this construction approach, there are no nails to pop out or boards to bow or snap during normal use.

Cambium® Pool Code

If you're interested in creating a safe and tasteful boundary around your pool or yard, Cambium's® pool code fence is the perfect choice. Offered with either an open or a closed top, this fencing meets or exceeds nearly every building code for pool fencing.

A picket style product, pool code fencing utilizes a third mid-rail and a reinforced bottom rail to add strength and extra protection.

Most privacy fence designs meet building codes for pool code fencing.

Cambium® Accessories

Ball

Internal

External

New England

Other styles may be available. Pyramid and Dog-Ear caps not shown.

Either Cambium® finish - Cedar or Driftwood - will complement your home's exterior with its rich, wood look. Discover the carefree enjoyment of your outdoor space while increasing the value of your home. Gates are available to match any fence style, and you can choose from a complete line of decorator caps to create that personal touch: New England, Ball, External or Internal caps for privacy fencing; Dog-Ear, or Pyramid caps for pickets.

Why Cambium® Is Right For You

Cambium® is manufactured by Crane Fencing Solutions, one of the Crane Plastics family of companies. Crane Plastics is a third-generation company with more than 60 years of expertise in plastics - a company known for bringing innovative products to market. Crane Fencing Solutions, a leading manufacturer of high-quality fencing and railing products, utilizes dependable consumer research to bring to market the products homeowners truly want. Combining beauty and performance with strength and durability, Crane Fencing Solutions answers the demand for products that provide attractive, secure and private options for enhancing outside property. We can help you extend your living space by making the outdoors a fun and functional part of your home.

You can count on total peace of mind with Cambium® fencing products. Our transferable limited lifetime warranty – designed to protect your investment – covers your fence against peeling, flaking, blistering, corroding, rotting, rusting and termite infestation.

Cambium® products meet or exceed all relevant ASTM standards which govern our fence quality and manufacturing. You can be confident that we offer a superbly engineered fencing system and that the materials used in the manufacturing process have undergone extensive testing.

Cambium® is a low-maintenance alternative to wood...requiring no time-consuming maintenance like staining or painting. And no need to worry about splitting, splinters, rot or termites. Cambium® fences are designed for durability and are constructed using routed posts and notched rails. This means you always get a secure fit and never have to deal with nails or screws.

Enjoy owning a Cambium® fence...*while you enjoy the fact that you will never have to spend another beautiful day caring for it!*
